

# NEW CA-9S

# New CA-9S

# New CA-9S

42  
bpm

## Increased productivity

The new work cycle and new inverter allow to reach an output up to 42 bpm of 1 kg.

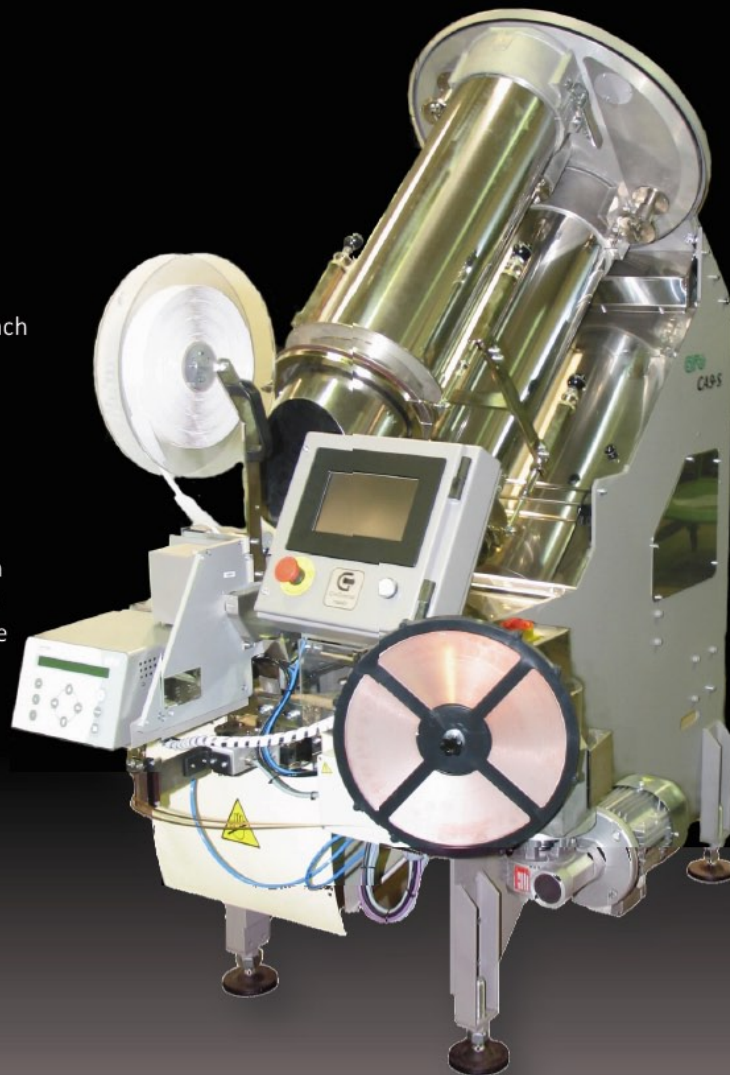

## GirControl Plus ready

The new CA-9S allows GirControl Plus connection and due to that the client can make a production control, real time monitor and remote service the same as GB/UB.

## New touch-screen

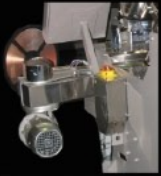

New touch screen 7" includes an advanced interface more intuitive and attractive.

**GIRÒ**

# New CA-9S

## Clipping head without mechanical brake

In the last version a motor brake moved the clipping head. Now, the new inverter is making this function, avoiding adjustments and extending the life.

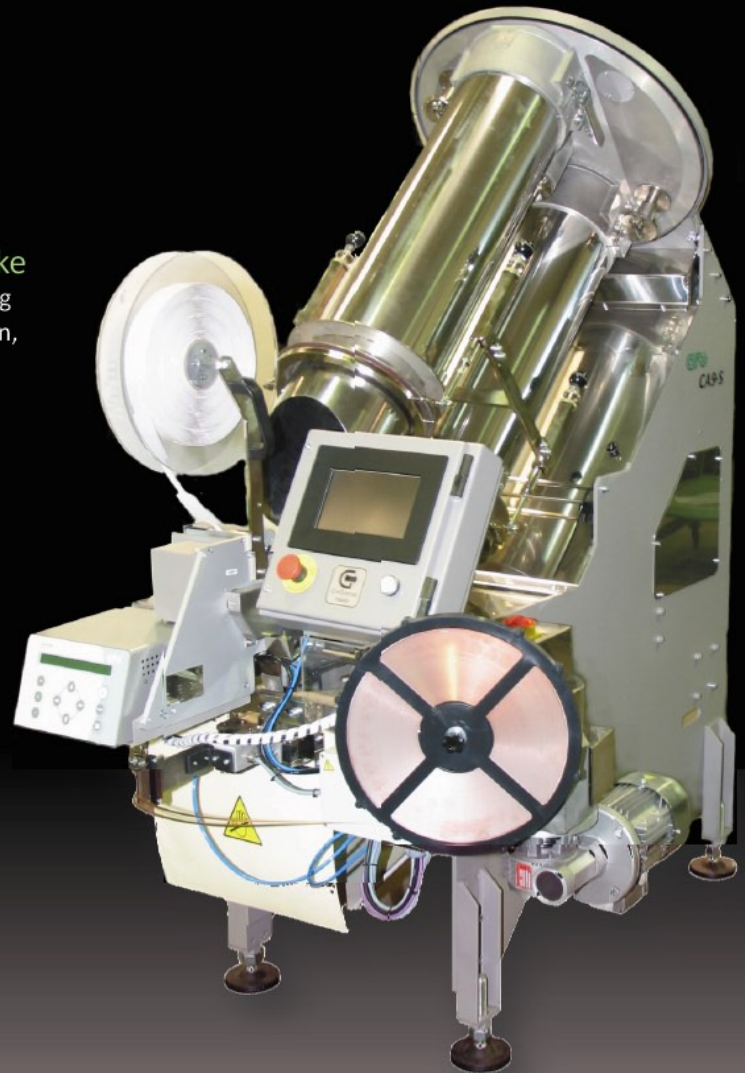

## Adjustable leg height

It includes adjustable legs that can raise CA-9S 200 more than the CA-9.

## Higher protection and safety

All moving and energy parts are fully protected to avoid accidents.

# New user interface more intuitive
